The 2015 Golf Season is Here!

We would like to welcome all of our customers back to Bear Creek Golf Club. This year marks our 17th anniversary in public golf and banquet services. Since opening in 1998, we've seen Bear Creek become one of the finest public golf courses in the area. Our goal is to provide a superior golf and banquet experience to each of our customers on a timely and consistent basis. We do this by maintaining the golf course and banquet facilities to the highest standards and providing polite and professional customer service day in and day out. Over the years, our customers' feedback has helped us react to the different trends in the industry, yet stay focused on our core products and services. And we thank you for that. Also, to all of our present and past employees who have spent their time helping Bear Creek achieve their goals - kudos to you! -- Kirk Porter, Owner/Manager

Maintenance is READY to Go!

With the golf season inching closer every day, the maintenance staff has been working to get the golf course ready. All of the mowers have been sharpened and serviced, the tee blocks have been painted, and the ball washers have been put out. Round-up with pre-emergent herbicide has been applied to the zoysia fairways. This can be done while the warm season grass is dormant to eliminate any weed that may have emerged over the fall and winter months. It also helps to prevent crabgrass during the summer. Fertilizer and pre-emergent will be spread throughout the rest of the golf course over the next couple weeks. The grass will be growing soon and we can't wait!
