## **Skins, Skins, Skins**

In a previous issue, we looked at the trends in how skins were scored this season in the Monday Senior Scramble. In this issue, we'll look at similar information from the Tuesday Senior Scramble this season. The hole on which a skin has been recorded most frequently is #18, with 11 total skins earned. The holes in which a skin has been recorded least frequently are #3, #10, and #13 with 5 total skins earned. The overall frequency of skins recorded on Tuesdays for the first eight months of 2015 are as follows:

- 11 skins have been earned on #18
- 10 skins have been earned on #14
- 8 skins have been earned on #4 & #5
- 7 skins have been earned on #1, #2, #7, #9, #12, and #16
- 6 skins have been earned on #6, #8, #11, #15, and #17
- 5 skins have been earned on #3, #10, and #13

The greater number of skins on Tuesdays is probably due to the fact that there are fewer players on Tuesday, therefore there are fewer teams to tie a potential skin. In addition, there is a higher percentage of players on Tuesday who choose not to participate in the skins game at all. In future weeks, we'll see if we can determine whether or not the frequent/not-so-frequent skins holes are the same or different on Mondays vs. Tuesdays and determine what inferences we can draw from that.
